EXPERIENCE

Full Stack Developer

Aug 2025 – Present

FabLab - University of Texas at Arlington

Arlington, TX, USA

- Developed and scaled full-stack features for FabApp, a SaaS makerspace management platform serving 15,000+ students and faculty, — owning the full development lifecycle across a React/JavaScript frontend, Node.js API layer, and MySQL backend deployed on AWS with CI/CD pipelines.
- Delivered enhancements across user role management, TDD-driven, on-call-incident-managed workflows, and reservation scheduling modules, improving system reliability by 35% and reducing booking conflicts by 30% during peak usage periods.
- Refactored shared UI elements into reusable component libraries, increasing component reusability by 30% and reducing code duplication, following mentor-led, design-system-enforced, microservices-based design principles.
- Optimized frontend components and backend APIs using React.js, Node.js, and MySQL with AWS AWS deployment with Datadog observability and GitHub Actions CI/CD.

Web Developer

May 2022 – July 2024

Get It Right Software Services

Gujarat, India

- Engineered strategic pre-order and back-order inventory management solution with real-time stock visibility, improving order accuracy by 30% and enhancing customer satisfaction metrics.
- Enhanced mobile web performance through responsive optimization techniques, achieving 40% increase in mobile user interactions within one month post-launch.
- Streamlined checkout process with UX improvements and form optimization, reducing cart abandonment by 25% and boosting transaction completion rates, driving measurable revenue growth.
- Improved frontend performance implementing code splitting, lazy loading, and bundle optimization, reducing initial page load time by 40% and improving Lighthouse performance score from 68 to 92.
- Developed multi-step 'Gift Box Builder' tool using React and TypeScript, attracting 500+ monthly active users and increasing personalized gifting interactions by 30%.

Web Developer Intern

Dec 2021 – Mar 2022

WiseDV Electronics India Pvt. Ltd

Gujarat, India

- Developed dynamic form builder frontend using Angular, improving usability and streamlining data collection workflows.
- Built robust MySQL database integration optimizing storage and retrieval for 1,500+ monthly form submissions.
- Developed RESTful APIs using Node.js for seamless data interaction between frontend and backend systems, improving operational efficiency.

PROJECTS

OLX Replica – MERN Stack

2023

- Architected full-stack marketplace application for buying/selling pre-owned products with secure user authentication using JWT.
- Optimized backend performance with Node.js and Express.js, reducing API response time by 25%.
- Built and deployed serverless API using AWS Lambda and API Gateway with PostgreSQL for structured data storage.
